### **HA-790 Heavy-Duty Portable Cassette Recorder/Players** ***High-End Features for More Than Just Recording!***

Looking for a top-quality cassette recorder with variable speed playback that can also be used as a portable PA system? Hamilton's HA-767 combines unmatched recording capabilities, variable speed playback and will function as a 10 watt PA. The automatic recording level control function ensures a steady sound level without having to adjust volume. Other record features include built-in microphone and an LED recording/power indicator. Playback features includes eight (8) ¼" headphone jacks, digital counter, cue/review buttons, automatic shut-off and a high-quality 4" speaker. The HA-790 operates on 120V AC only with attached power cord and cord wrap.

- Eight ¼" Headphone Jacks
- 10 Watt Amplifier
- Built-In Condenser Microphone
- Automatic Level Control
- 4" Round Speaker
- Separate Tone and Volume Controls
- Convenient Cord Wrap
- Operates on AC with attached 5' Cord
- UL and CSA Listed
